

September 8th, 2015

To the Families of New Ventures Charter School Students,

We are thrilled to provide you with a brand new Chromebook!

Students are expected to bring their Chromebook from home to their Fieldwork and school. There is a significant amount of responsibility on the students to properly care for their laptop. Please see below for the major terms:

- Our Internet Use and Safety Policy (available online at www.nvcssi.org) details the appropriate use of the Chromebooks. Students who do not comply with this Policy will be subject to consequences and possible removal of the laptop.
- Students are responsible for proper care of their laptop, including charging it at home, and transporting it to and from Fieldwork and school.
- If the Chromebook is lost or stolen, or damaged outside of the warranty period, the family may be charged a replacement fee.

If used responsibly, we look forward to having our Chromebooks enrich our students' learning and experience at NVCS!

Sincerely,

Ron Gorsky
Principal
