July 2018

Dear Students:

As we look forward to our fourth year of existence, we begin to reminisce on the first three.

This 2018-2019 academic year looks brighter than ever.

Students from all over Staten Island are coming to New Ventures and fulfilling their promise of graduating. Diploma numbers went from 6 to 26, then to 45 throughout our first three years, and we look forward to the rising number this coming year.

Our first year of Culinary Arts was a huge success as students learned the Principles of Cooking, Global History of Food, Gastronomic Literature and the Chemistry of Cooking.

A plethora of culinary internships have also emerged from this fieldwork and have given our students the opportunity to work in the fast paced food industry. Through the help and support of Councilman Joseph Borelli, our cinematography course at the Conference House provided students the opportunity to tell the story of the role Staten Island played in the birth of our nation. Each year, new fieldwork and internship placements arise to fulfill all of your academic and professional needs. We have tremendous plans ahead for all of you, and we can't wait to witness all of your accomplishments. Our team of passionate, expert educators are committed to preparing you for post-secondary success. Wherever that path may lead, always know that your family here at New Ventures will be there for you every step of the way.

Sincerely,

Ryan Melis

Ryan Melis
Principal

Welcome to New Ventures!

To help you plan your education to meet your future goals, New Ventures has developed this *Student and Family Handbook*. This *Handbook* provides you with the requirements for success throughout your time with New Ventures. In addition, this handbook provides information relative to promotion guidelines, testing, behavioral management, student rights and responsibilities and Integration Charter Schools (ICS) policies and procedures.

Mission Statement

The mission of New Ventures is to create a learning community in which all students including those living in challenging economic circumstances and those living with emotional challenges and other disabilities, develop the skills and social fluency to lead fulfilling and contributive lives in their communities. New Ventures will promote college and career readiness for over-age and under-credited, at risk youth, aged 16-21 living on Staten Island, enabling them to graduate from high school prepared to excel in their academic, professional and personal lives.

Promoting Student Success at Integration Charter Schools

A continuing goal of Integration Charter Schools is promoting higher standards and greater student achievement for all learners in an inclusive environment. Each summer, this handbook will be reevaluated and amended in order to be appropriate for the upcoming school year.

Non-Discrimination

New Ventures Charter welcomes all students equally, regardless of their race, color, national origin, disability status, sex, sexual orientation or religion or any other characteristic protected by local, state, or federal law. All students will be treated as individuals and different treatment based on (real or perceived) race, color, national origin, disability status, sex, sexual orientation or religion or any other characteristic protected by local, state, or federal law will not be tolerated. Anyone who feels that he or she has been treated differently on any such basis should speak with a counselor, who will apprise the Principal of all reports. Anyone who raises any concerns of discrimination on any basis will be free from retaliation for raising such a concern.

Dignity for All Students Act Policy (DASA)

New Ventures is committed to providing a safe and productive learning environment within the School. In accordance with New York State's Dignity for All Students Act ("DASA") the School is committed to promptly addressing incidents of harassment and/or discrimination of students that impede students' ability to learn. This includes bullying, taunting or intimidation in all their myriad forms.

Student Rights: No student shall be subjected to harassment by employees or students on School property or at a School function. Additionally, no student shall be subjected to discrimination based on the student's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex, by School employees or students on School property or at a School function.

Further, the School reserves the right to discipline students, consistent with our Code of Conduct, who engage in harassment of students off School property under circumstances where such off-campus conduct:

1. affects the educative process;
2. actually endangers the health and safety of New Ventures students within the educational system; or
3. is reasonably believed to pose a danger to the health and safety of New Ventures students within the educational system.

This includes written and/or verbal harassment which materially and substantially disrupts the work and discipline of the School and/or which School leaders reasonably forecast as being likely to materially and substantially disrupt the work and discipline of the school.

Dignity Act Coordinator (DAC)

New Ventures has a Dignity Act Coordinator (“DAC”) whose name and contact information can be found on the School’s website under “Parent Resources.” The DAC is trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender and sex. The DAC will be accessible to students and other employees for consultation and advice.

Reporting and Investigating

New Ventures staff members are responsible for reporting harassment of which they have been made aware to their immediate supervisor. Any student who believes that s/he is being subjected to harassment, as well as any other person who has knowledge of or witnesses any possible occurrence of harassment, shall report the harassment to any staff member, the DAC, or the Principal. A staff member who witnesses harassment or who receives a report of harassment shall inform the Principal. The Principal shall promptly investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority (e.g. the Board of Trustees) and/or other official designated by the Board to investigate allegations of harassment. Follow-up inquiries and/or appropriate monitoring of the alleged harasser and victim shall be made to ensure that harassment has not resumed and that those involved in the investigation of allegations of harassment have not suffered retaliation.

Material incidents of discrimination and harassment on School grounds or at a School function will be reported to the State Education Department as required by law.

No Retaliation

New Ventures prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of harassment. All complainants and those who participate in the investigation of a complaint in conformity with state law and School policies and who have acted reasonably and in good faith, have the right to be free from retaliation of any kind.

Promotion Policy

New Ventures is committed to preparing students for college admission. We have established very high standards for our students both with respect to the courses and Regents Exams, which they are expected to pass within the accelerated time table on which is individually established.

We recognize, however, that the progress of students will not always be smooth and predictable. While our program is designed to encourage students to move quickly, so that earning a diploma within 26 months is possible, we are also prepared to address the needs of students who require more time. Should a student fall significantly behind in accumulating the credits needed for a Regents Diploma, the student and his or her parent(s) or guardian will be asked to conference with school staff and the Principal to examine alternatives.

New Ventures Graduation Requirements

- Four years of English (8 credits)
- Four years of social studies (8 credits)
- Three years of mathematics (6 credits)
- Three years of science (6 credits)
- One year of a foreign language (2 credits)
- Three and one half years of physical education (4 credits)
- One-half year of health education (1 credit)
- One term of music (1 credit)
- One term of art (1 credit)

The New York State Regents Diploma will be awarded to students who pass 5 Regents Examinations in:

- English
- Global History
- American History
- Algebra
- Geometry
- Algebra II/Trigonometry
- Foreign Language
- Living Environment
- Chemistry
- Physics and/or Earth Science

Credits

The total number of credits needed for graduation is 44.

English to Non-English Learners (ENL)

English to Non-English Learners (ENL) are courses that address commencement-level English Language Arts standards in addition to ELL standards that bear core English or elective English credit to non-English speaking students. Beginner ENLs are programmed for 540 minutes per week of ENL; one core English and one elective English credit for Intermediate ENLs (who are programmed for 360 minutes per week of ENL; and one elective English credit for Advanced ELLs (180 minutes per week of ESL), who also must be programmed for one non-ESL core English credit.

Special Education

New Ventures curriculum and comprehensive design will be geared to fully integrate students with special needs and to enhance the education of all students regardless of background or disability. All students will experience learning in small classes with a teacher and a teacher assistant for at least 60% of the normal school week. Students who require adapted curriculum work and related services such as speech-language therapy or occupational therapy, will receive them within the classroom whenever appropriate. Students with disabilities at New Ventures will have the opportunity to fully participate and progress in the general education curriculum and will participate in State and District-wide assessments in accordance with their Individualized Education Programs (IEPs). Under the supervision of the principal or his/her designee, a teacher certified in Special Education to ensure compliance will review IEPs of incoming students.

Students will also receive Computer Assisted Instruction (CAS) that will include individualized learning activities in line with the student's IEP goals and present levels of performance. New Ventures will utilize Assistive Technology (AT) to support students with a disability work around his/her challenges in order to improve learning, enhance communication, or simply function better.

Inclusion Model

New Ventures is committed to the Inclusion Model as the means for serving the needs of all of its students. New Ventures curriculum and all classes will be specifically designed to fully integrate students with special needs and to enhance the education of all students regardless of background or disability. The classroom environment will be responsive to the individual needs of all students, including students with disabilities. Examples of this include differentiated and adapted curriculum work based on student needs, skills assessments and learning styles. Therapies such as speech-language therapy and occupational therapy will be provided within the general education classroom whenever appropriate, and in accordance with their IEP, compliant with governing laws and regulations.

The Inclusion Model enhances the education of all students by providing for:

- Dually certified teachers who are certified in special education as well as academic content
- Highly qualified and trained teacher assistants who work with the teachers to differentiate instruction and address individual student needs;

- Computer assisted instruction which includes specific learning activities prescribed for students, based on a diagnosis of their skill needs by teachers, data analysis from individual assessments and special needs according to their Individualized Education Programs and academic goals;
- Positive behavior interventions and supports designed to motivate students and promote positive student behavior and sense of community;
- Wellness classes offered twice a week for the entire time that students are in New Ventures.

New Ventures will implement the IEP developed by the CSE of the student's district of residence for each student with a disability and will collaborate with the student's district of residence to ensure that all services recommended in the IEP are provided to the student, including class size and teacher-to-student ratio.

Educational Information and Support

Academic Advisement

Our Director of Academic Guidance will provide advice on programming, academic planning, and college advisement, as well as offering assistance on any personal or school problems.

Grading Policy and Philosophy

Grades reflect class work, homework, projects, papers, examinations, participation and performance in each subject area.

Grades are evaluative instruments and indicators that measure students' achievements, efforts, and extent of progress in their classes. The components of a grade are academic and standards based and reflect each student's competency in the course content. New Ventures issues report cards 6 times per year (two times per trimester). Each trimester, final grades are entered onto students' transcripts

Grades reflect class work, homework, projects, papers, examinations, participation and performance in each subject area. Teachers are required to explain to students how grades are determined through a written contract that is distributed at the beginning of each term. The contract must be positive in tone, fully explain the weights accorded to each category and explain how grades are derived (e.g.: standards based, cumulative policy, opportunities for extra credit).

All assessments should be returned to students with constructive feedback and/or reflective questions to assist students improve their understanding. Students that demonstrate a deep understanding of the course based upon end of year assessments should not have earlier formative assessments count against their grade. Students have opportunities to make up missing work.

Numerical grades :

65 & Higher: Passing grade

1. Examinations, quizzes, homework and semester projects comprise 65% of the final grade.

A minimum of four (4) full period classroom examinations is required for all students in each class during each semester. All examinations must reflect the content and format of the Regents' examinations. The frequency and specific value of examinations and quizzes are established by department guidelines and rubrics for all students. Teachers should make comments, suggestions, and correctives on each examination, so students can learn from their mistakes and improve performance on future examinations. These guidelines and rubrics for grading will be distributed by departments in a contract to be signed by students, parents or guardians, and teachers. Performance/skill tests for students in activity classes comprise 10% to 15% of the final grade.

2. Class participation shall comprise not more than 35% of a student's final grade.

This component is determined by the quality and frequency of performance in class activities, including written assignments, oral recitations, and presentations as well as participation in group and individual activities, exercises, discussions, and projects in the class. In this area, students should be graded objectively on the basis of achievement level.

3. Attendance.

All students are expected to maintain a 90% attendance rate.

4. Making Up Class Work.

It is the policy of the ICS that students who have been absent from class for verified, legitimate reasons (such as illness, court appearances, family emergencies, or attendance at funerals) are to be given a reasonable opportunity to make up missed work, including examinations.

5. Appealing a Final Grade.

To appeal a teacher's final grade, students must present all documentation to the teacher to argue their case. If the teacher denies changing the final grade, the student may appeal to the department supervisor who will make a determination for the final grade based on evidence provided by both the teacher and the student. The student may appeal the decision of the supervisor to the principal who has the option of changing the grade after notifying the teacher in writing of the reason(s) for the change.

Promotion

For students who do not meet the promotion and/or graduation standards, there are options to help them both recover credits and graduate. Students will have options to make up for missed work and/or content. Computer based interventions, cumulative projects assigned by the respective course teachers, summer school, and tutoring will all be viable options for students to improve academic performance deficits. Opportunities to make up any and all failed regent(s) will also be made at the times Regents are offered.

All students admitted to New Ventures will meet with an advisor to develop an Individual Learning Pathway that will provide a map of courses and Regents exams to be taken in order to earn a diploma within two years.

Attendance and Lateness

Daily attendance is required of all students for success in class work and necessary for passing grades. Absentee students must submit an absence note to their teachers upon return to school that has been signed by a parent, guardian or doctor. Parents and guardians must make every effort to contact teachers to obtain homework assignments when their youngsters are out from school for an extended period of time. Students should obtain telephone numbers of classmates whom they may contact for homework assignments when they are absent.

Students have three minutes to travel from one class to another. Be prompt! Excessive lateness will prevent students from full participation in subject classes.

Internships

During the Fall, Winter and Spring terms at New Ventures Charter School, all students spend one day a week participating in our Internship Program.

In their first year, students' intern in the office of Staten Island elected officials' and community based organizations.

While in their second year, most students participate in a career-oriented internship selected on the basis of their future goals. As a prerequisite to an internship placement, students are required to complete a Summer Boot Camp. The unique component of the New Ventures design is a 6-week experience which lays the groundwork for their future success. Students acquire critical knowledge in areas such as communication skills, “dressing for success” and resume building. Each student completes Boot Camp better prepared for success in his/her internship placement and helps to chart in course towards their graduation.

Field Work

In addition to standard High School courses, we are proud to offer innovative programming including our internships and fieldwork.

Cinematography

Using the raw and rugged feel of documentaries as a focus, students learn what it takes to organize, manage, and create film and media productions. Students in this course work alongside Emmy award-winning producer Orly Wiseman as we explore, create and analyze the use of cinematography as an artistic expression.

Using a unique interdisciplinary approach, including writing, history, and art, as well as hands-on time with film equipment, this class teaches the most important parts of documentary film making. The course will take place at the Conference House which is a National Historic Landmark owned by the City of New York. Councilman Joseph Borelli will participate in our course and help to tell the story of the role Staten Island played in the birth of our nation. Our students will learn about and support the mission of the Conference House which is to preserve and educate visitors about its historical significance, and use the lessons learned from the failed peace conference to help resolve modern day conflicts within our youth and community.

Living History of New York

This Fieldwork Course is a hands-on experiential learning experience in which students learn about the history, literature, economics, art, and culture of New York City while experiencing the City in the field. In this course, students will develop critical reading and writing skills while experiencing history in the same places that it happened. When learning about the immigrant experience, students will visit Ellis Island and will research their families and walk through the same immigration process that immigrants used to come to New York. When learning about 9/11 and its impact on New York, national security, and global politics, students will be able to visit the memorial and interact directly with testimonies of the experience and the 9/11 reports. Students in this course will be able to walk the Brooklyn Bridge and learn the history of the consolidation of all of the boroughs. The course analyzes New York City through an interdisciplinary lens, questioning how New York City became a place of consolidated opportunity and power through a local and global context.

Historic Richmondtown

Fieldwork at Historic Richmondtown submerses students into early American history and offers them the chance to reenact history from their own perspective. Through hands on training with Richmondtown staff, students cook, make candles, and interact with historical artifacts to better understand the hardships and triumphs of daily life for early Americans. In addition to the hands on training, students participate in classroom lessons to provide context to their experiences and offer a comprehensive study of early American history. As a chance for students to showcase

what they have learned and studied, they participate in a final presentation where they role play as a historical character they created to Richmondtown visitors. In short, Fieldwork at HRT offers students the chance to immerse themselves in early American history in a unique and engaging way.

Culinary Arts

New Ventures is excited to participate in our first Culinary Arts Program, *Puddin' Kids 1st*, sponsored in part by Michael Caridi of the Kozy Shack Puddin' Kids 1st Vincent Gruppuso Foundation. The program includes a variety of thematic educational courses and experiential hands-on learning, which all takes place at the South Fin Grill courtesy of our partnership with Mark Tranchina.

Examples of innovative coursework for participating students will include: Gastronomic Literature, the Global History of Food, Ecology and the Food Chain, Chemistry of Cooking, Microeconomics of Food Production, and more. With careful planning, these courses provide meaningful cross-curricular connections for our students, combining food science and preparation with mathematics, science, English Language Arts, biology, and the arts. Students in this unique program will also be prepared to earn their Food Handlers Certification through a unique Culinary Boot Camp. They will also experience education related to the business processes and skills involved in restaurant management including purchasing inventory and providing farm to table operations.

At the South Fin Grill, students will also receive hands-on training by a professional Chef for 3 hours each afternoon, Monday-Thursday. Each Friday, students will then work as interns in restaurants and food-related establishments throughout Staten Island.

In keeping with our mission to provide our students with the education, confidence, and skills needed to succeed, this innovative program will provide New Ventures Charter School students with a pathway to not only earn a Regents Diploma, but also a Certificate in Culinary Arts.

Marketing / Entrepreneurship

Our Marketing fieldwork helps students understand the principles and fundamentals of marketing. This is the process through which organizations analyze, plan, implement, and control programs to develop and maintain beneficial exchanges with target buyers. Effective marketing is critical for the long-term success of any business organization. Through hands on projects such as 'Shark Tank', real life scenarios and field visits, our students will understand the process to develop their own product, and successfully operate their own small business.

Math in Sports - Data Analytics

Math in Sports is an interactive fieldwork course which allows students to apply computational skills and data analytics to the world around us. Students are applying data analytics as well as themes in sports sociology, to predict real life situations that can occur in the growing world of sports. In this class, students create their own fantasy sports teams, with the intent of practicing and applying data collection, data analysis and computational skills. Students will also be using data analytics to predict possible outcomes in national sports leagues. In addition, students will be given the opportunity to interview local sports commissioners and players to help with their research and data analysis. Learning the components of data is very useful in the world of sports, however, data is everywhere, and this is why this course prides itself on applying data analytics to the sociological world around us!

The Social Science of Learning

The purpose of this course is for students to gain social scientific content knowledge surrounding the issues, concepts, and ideas that influence education and the learning process of an individual. The content will include Piaget's Stages of Development, Bloom's Taxonomy, Learning Styles and more, along with the impact that race, gender, and socioeconomic status has on one's education and learning. Students will engage in classwork activities, projects, and experiential learning by becoming mentors and tutors to third-fifth graders. During the tutoring portion, students will observe and apply classroom content to create a comprehensive learning experience to connect and utilize what's being taught in the classroom. The course will conclude by solidifying the academic knowledge of the sociological and psychological effects on learning.

Genocide and the Resilience of the Human Spirit

In partnership with the Holocaust Center of Wagner College, this course which is located on the campus of St. John's University, provides students with the tools to better understand the process and perspectives during the Holocaust and several other genocides. Students acquire knowledge of the systematic process of genocide, known as the 10 Stages of Genocide. This course provides students with the framework for understanding its countless, complex and frequent emotional issues. In this class our students are presented with the opportunity to analyze and interpret survivors' lives through their testimonies. Students will explore the resilience of the human spirit and connect these experiences to their own lives.

Robotics

The Robotics fieldwork gives students the opportunity to work with Lego Mindstorm, as they apply their programming skills to build robots. After learning the basics of programming, students complete challenges and engage in competitions using the robots they have created. This course allows students to learn through discovery and problem solving, as they are challenged to think critically while being creative. Beginners through advanced students are welcome, as the robotics content will be differentiated to students' needs. Throughout the course students will also have to opportunity to design more complex projects as they will have access to various programs including Final Cut Pro X and Logic Pro X.

Transportation Cards

Students who meet eligibility requirements of the Metropolitan Transportation Authority (MTA) may obtain free MTA Cards by completing and submitting applications to the Transportation Coordinator at the beginning of the school term. These cards may be used on school days for a maximum of four trips daily from 5:30 AM to 8:30 PM. Students are urged to take care of each monthly MTA card as lost and stolen cards cannot be replaced.

Illness in School

Students should have an updated Emergency Contact Card on file in the Main Office so that the school may contact parents or guardians when students become ill or are injured. If it is necessary for students to go home, and they are younger than eighteen years old, their parents or guardians must come to the school to pick them up at the main office.

Passes

Students must obtain a pass if it is necessary to leave a class unless there is a medical emergency. Teachers have the right to limit use and duration of the classroom pass.

Textbooks

Students must return all textbooks at the end of the school year in good condition so that the next class may use them. Students who fail to return books will have their names listed on an “unreturned book list” and will not be given books for the new class until the previous class books are returned.

Food Services

Dinner will be served each afternoon. All families are required to fill out the full or reduced rate form (meal eligibility form).

Immunization

All students must have complete and up to date immunization records. Students who do not have current immunization will be excluded from school. In addition, for all students’ health and safety, they must have annual medicals to participate in physical activities. Immunization records and medicals are stored in the Health Office.

New York State immunization requirements include:

Vaccines	Prekindergarten (Day Care, Head Start, Nursery or Pre-k)	Kindergarten and Grades 1, 2, 3 and 4	Grade 5	Grades 6, 7, 8, 9 and 10	Grades 11 and 12
Diphtheria and Tetanus toxoid-containing vaccine and Pertussis vaccine (DTaP/DTP/Tdap/Td) ²	4 doses	5 doses or 4 doses if the 4th dose was received at 4 years or older or 3 doses if 7 years or older and the series was started at 1 year or older		3 doses	
Tetanus and Diphtheria toxoid-containing vaccine and Pertussis vaccine booster (Tdap) ³	Not applicable			1 dose	
Polio vaccine (IPV/OPV) ⁴	3 doses	4 doses or 3 doses if the 3rd dose was received at 4 years or older	3 doses	4 doses or 3 doses if the 3rd dose was received at 4 years or older	3 doses
Measles, Mumps and Rubella vaccine (MMR) ⁵	1 dose	2 doses			
Hepatitis B vaccine ⁶	3 doses	3 doses or 2 doses of adult hepatitis B vaccine (Recombivax) for children who received the doses at least 4 months apart between the ages of 11 through 15 years			
Varicella (Chickenpox) vaccine ⁷	1 dose	2 doses	1 dose	2 doses	1 dose
Meningococcal conjugate vaccine (MenACWY) ⁸	Not applicable			Grades 7, 8 and 9: 1 dose	Grade 12: 2 doses or 1 dose if the dose was received at 16 years or older
Haemophilus influenzae type b conjugate vaccine (Hib) ⁹	1 to 4 doses	Not applicable			
Pneumococcal Conjugate vaccine (PCV) ¹⁰	1 to 4 doses	Not applicable			

Students Who Require Daily Medication

Pharmacies

Only those medications necessary to maintain the student in school and which must be given during school hours will be administered in school. Any student who is required to take medication during the regular school day or while participating in School-sponsored activities (e.g., field trips, athletics) should comply with all procedures.

Any prescribed medication that requires administration through a subcutaneous, intramuscular, intravenous or rectal route, or prescribed medications being administered through pumps, tubes or nebulizers, or oral, topical or inhalant medication needed by non-self-directed students will be given by the School nurse or licensed practical nurses under the direction of the New Ventures nurse. *The other members of New Ventures staff will not perform administration of such prescribed medications.*

Designated staff in the school setting, following assignment and in conjunction with approval by the School nurse, may assist *self-directed students* with the taking of their own oral, topical and inhalant medication. The School nurse as well as the School administration will ensure that the staff person receives the training and supervision needed to perform these tasks in a safe and effective manner.

Physician Orders

New Ventures requires a written order from a duly licensed prescriber and written parental permission to administer medication. All medications given in school, including nonprescription or over the counter (OTC) drugs, shall be prescribed by a licensed prescriber on an individual basis as determined by the student's health status.

The School nurse may request additional information, such as self-administration orders, diagnosis and/or potential adverse reactions. Medication delivery should not be delayed pending this information, however, unless such information is essential to the safe administration of the medication.

Special Considerations

Medication orders must be renewed annually or when there is a change in medication or dosage. The pharmacy label **does not** constitute a written order and **cannot** be used in lieu of a written order from a licensed prescriber. When a properly labeled medication comes to the health office accompanied by a written request from the parent(s) or guardian for administration of the medication, but without a written order from a licensed prescriber, the following procedure will be followed:

- Contact parent(s) or guardian regarding need for written order from a licensed prescriber.
- Contact licensed prescriber to obtain verbal permission to administer medication.
- Request fax or written orders to be received within 48 hours.

- Contact parent(s) or guardian and discontinue medication if written orders are not received in 48 hours.
- Document above steps.

Parental Responsibility

A written statement from the parent(s) or guardian requesting administration of the medication in school as ordered by the licensed prescriber is required. The students' medical doctor who prescribes the medication to be given in school should complete medication Administration Forms. These forms can be obtained from the School Nurse, or from the main office. It is the responsibility of the parent(s) or guardian to have the medication delivered directly to the health office in a properly labeled original container.

OTC Medications

Must be in the original manufacturer's container or package with the student's name affixed to the container. The same applies to drug samples. For certain medications, especially **controlled substances**, standards of best practice include counting or measuring the medication upon receipt and periodically thereafter. This is not a legal requirement but constitutes a sound practice when handling controlled substances.

Discrepancies should be reported to the parent(s) or guardian and to the School administration immediately. Best practice includes close supervision of medication taking. Medications must not be transported daily to and from school. Parents or guardians will be advised to ask the pharmacist for two containers, one to remain at home and one at school. Instructions will be left for substitute nurses that are clear and concise on the handling of all aspects of medication acceptance, handling, delivery and storage. Education of families regarding the New Ventures medication protocols is an ongoing responsibility of New Ventures.

Medication Administration

All medications will be administered as close to the prescribed time as possible. Given student schedules and compliance with coming to the health office in a timely fashion, medications accepted for school administration generally may be given up to one hour before and no later than one hour after the prescribed time. Parents or guardians and licensed prescribers must advise the School, however, if there is a time-specific concern regarding administration of the medication. Parents or guardians, students, and the school nurse will work together to ensure that the student receives his or her medication at the appropriate time.

If a student fails to come for a dose, the administration will provide support to health office personnel, such as security personnel, administrative or clerical staff to locate the student. If the medication has not been given for any reason within the prescribed time frame, New Ventures will make all reasonable efforts to notify the student's parent(s) or guardian that day, as they may need to adjust a home dose accordingly.

If students chronically fail to come for medications, the School nurse will contact the parent(s) or guardian to address the issue. The licensed prescriber will be informed of the poor compliance,

so that the medication protocol can be reviewed and possible adjustments made, i.e., home administration, extended release medication.

Ongoing communication and collaboration between New Ventures and parents or guardians will occur to assist students in assuming personal responsibility for their health behavior.

A medication may be changed or discontinued by a written order of the licensed prescriber at any time. If a student's parent(s) or guardian request discontinuation of a prescribed medication without the prescriber's order to do the same, New Ventures will send a confirmation to the parent(s) or guardian with a copy to the prescriber of the School's intention to discontinue the medication.

When the dose of a medication is changed by a licensed prescriber's written order and a parent's or guardian's request, and the old pharmacy bottle label has not been corrected, the nurse may label the bottle with the correct dose until the new pharmacy-labeled prescription bottle is received. The School will communicate to the parent(s) or guardian the importance of sending in a new bottle quickly.

Storage of Medication

No medication may be brought into the School without the knowledge of the health office. Procedures that facilitate this practice will be publicized so that parents or guardians and students do not feel the need to hide medication or to circumvent cumbersome procedures. All medications, except as otherwise arranged, will be properly stored and secured within a health office cabinet, drawer or refrigerator designated for medications only. The site must include a lock for the cabinet, drawer and refrigerator, as well as a lock to the outside health office door. Controlled substances will always be secured and will never be left open or accessible to the public at any time. Even self-directed students will not be given unsupervised access to controlled substances under the care of New Ventures. Whenever possible, medication storage units will be secured to the wall or floor and will not have breakable glass doors. If possible, all medications will be stored in a health office. There may be instances, however, when requests are made by a student's parent(s) or guardian and physician for a student to carry and self-administer medications because of the emerging nature of the health problem or the severity of the health condition.

Carry and Self-Administer Medication

If New Ventures receives a request from a parent or guardian and licensed prescriber to permit a student to carry and self-administer his or her own prescribed medication, such decisions will be made on an *individual basis and in accordance with the following criteria:*

- Severity of health care problems, particularly asthmatic or allergic conditions.
- Licensed prescriber's order directing that the student be allowed to carry his or her medication and self-administer.
- Parent or guardian's statement requesting compliance with licensed prescriber's order.

- Student has been instructed in the procedure of self-administration and can assume responsibility for carrying properly labeled medication in original container on his or her person or keeping in school.
- School nursing assessment that student is self-directed to carry and self-administer his or her medication properly.
- Parent or guardian contact made to clarify responsibility regarding the monitoring of the student on an ongoing or daily basis to ensure that the student is carrying and taking the medication as ordered. This contact will be documented.

The School nurse will counsel any student self-administering medication without proper authorization. In addition, the parent(s) or guardian will be notified. In all instances, the School administration will also be informed. Periodic reevaluation of the effectiveness of the procedure will be instituted.

School Policies and Procedures

Elevators

If medically needed, students may obtain an elevator pass from the main office with appropriate documentation, for the duration of their disability.

Safety Drills

ICS requires all students and staff to participate in twelve fire drills and four lockdown drills throughout the school year. During fire drills, students and staff must exit the building by following the directions posted in the room and leave in a speedy, orderly and silent manner.

School Trips

Students may participate in school trips if they: 1) attend classes regularly; and 2) maintain good attendance. Students with disciplinary records or history of cutting may be barred from the trip. Students and staff participating in trips over several days must comply with all ICS regulations, such as parental permission, emergency notification, chaperone/student ratio, the Discipline Code, and other pertinent trip information. Parents and students must meet with the lead trip teacher and the Principal prior to departure.

Uniform Policy

Tops:

ACCEPTABLE TOPS:

- BUTTON DOWN COLLARED SHIRT
- NEW VENTURES STINGRAY TEE SHIRT
- NEW VENTURES STINGRAY ATHLETIC WEAR
- (MORE NV LOGO APPAREL TO COME FROM THE DIRECTOR OF STUDENT ACTIVITIES)

HEADWEAR:

- NO HEADWEAR WILL BE ACCEPTABLE, UNLESS IT IS FOR RELIGIOUS PURPOSES.

Bottoms:

ACCEPTABLE BOTTOMS:

- ALL BOTTOMS MUST BE APPROPRIATE IN LENGTH
- WILL NOT BE PERMITTED:
 - RIPPED JEANS
 - SWEATPANTS
 - BASKETBALL SHORTS
 - PAJAMA PANTS

FOOTWEAR:

- ALL SHOES ARE ACCEPTABLE EXCEPT FOR OPEN BACK SANDALS OR SLIDES.

- In order to attend fieldwork and evening classes, all students **MUST** be wearing the proper uniform.
- Fieldwork teachers and T/A's will be monitoring and tracking students that are not in uniform.
- There will be additional NV tops at each fieldwork site, including evening classrooms. Students not in uniform will be asked to put on proper uniform.
- Non-compliance with this policy will result in parents being contacted by the teacher or teacher assistant, and being asked to bring up appropriate attire to the school or Fieldwork placement.
- If parent cannot bring up proper uniform, student will be sent home with verbal consent and expected to return to school with proper apparel.

Cell Phones/Technology (“All Devices”)

Students may bring cell phones or computing devices into, but they may not be turned on or used at school. All devices must be turned off before entering school and are not to be turned on until students have left school property. Devices may not be turned on or used during safety drills.

Devices may not be turned on or used during the administration of any school quiz, test, or examination, except as authorized by the school, or pursuant to an Individualized Education Plan or a Section 504 accommodation plan.

Students who use cell phones or computing devices, in violation of the Code of Conduct, the school’s policy, and the Internet Acceptable Use and Safety Policy will be subject to discipline in accordance with the guidance interventions and disciplinary responses set forth in the Code of Conduct.

Students who choose to bring devices, to school are fully responsible for that device/system by keeping that item on their person or storing the item. ICS and New Ventures are not responsible for lost, stolen, or damaged cell phones or computing devices.

The principal or designee will contact the student’s parent/guardian if a student violates the school’s Student Internet Acceptable Use policy as set forth below.

Student Internet Acceptable Use Policy

The student is ultimately responsible for his/her actions in accessing technology at Integration Charter Schools. Failure to comply with the guidelines of technology use may result in the loss of access privileges and/or appropriate disciplinary action. Severe violations may result in civil or criminal action under the New York Revised Statutes or Federal Law. Students are expected to observe the following:

Guidelines

1. The student technology will be used solely for the purpose of research, education, and school-related activities.
2. Access to school technology is a privilege, not a right. Inappropriate use will result in cancellation of these privileges and appropriate disciplinary measures.
3. Students are expected to maintain their instructional files and media in a responsible manner, which includes backing up files at regular intervals to a memory device or cloud service and deleting files at the end of the school year.
4. Students are responsible for their individual accounts and should take reasonable precautions to prevent others from being able to use their account. Under no conditions should a student provide their password to another person except to a Teacher, School Administrator or Parent.
5. All school e-mail accounts and information accessible and accessed via Integration Charter Schools technology is and shall remain the property of the Integration

Charter Schools.

6. Students will use school resources (e.g. printers, cameras, etc.) only for educational purposes.
7. Student computer configurations shall not be altered; this is including but not limited to screensavers, desktop settings, network settings, passwords, etc.
8. The student must immediately report to their teacher any issues occurring with their school computer or technology device.
9. Integration Charter Schools has the right to closely monitor student activity and take disciplinary action, remove computer and networking privileges, take legal action or report to proper authorities, if any activity characterized as unethical, unacceptable, or unlawful.
10. Integration Charter Schools actively uses internet filtering software and hardware to meet the Federal Children's Internet Protection Act (CIPA) requirement and to prevent students from accessing graphics that are (a) obscene, (b) pornographic, or (c) harmful to minors. Integration Charter Schools retains the right to block unacceptable web sites. Filtering software is not a perfect science and it may be possible for users to access inappropriate sites. However, Integration Charter Schools will take the appropriate disciplinary action for those who attempt to disable, bypass or otherwise circumvent the Integration Charter Schools content filter that has been installed in accordance with the Federal Children's Internet Protection Act.
11. If a student mistakenly access inappropriate information, they should immediately minimize their screen and tell their teacher. This will protect the student against a claim that he/she has intentionally violated this agreement.
12. Students will not make deliberate attempts to disrupt or harm the computer system and its hardware or destroy data by spreading computer viruses or any other malicious software or by any means. Use or possessions of "hacking" tools are prohibited.
13. A filtered e-mail account may be provided to students for educational purposes and not as a public or student forum.
14. Students will promptly disclose to their teacher or other school employee any message or information they receive that is inappropriate or makes them feel uncomfortable while on the web, using e-mail, chat rooms (authorized by teacher), forums or other forms of messaging services.
15. Students will not post or share information that could cause damage or a danger of disruption to Integration Charter Schools or any other organization or person.
16. Students are prohibited from accessing or attempting to access instant messages, chat rooms, forums, e-mail, social networking sites, or other messaging services during the instructional day unless authorized by a teacher or school administrator for instructional purposes.
17. Students will not plagiarize works they find on the internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were yours. Plagiarism could result in loss of grade for the assignment in addition to other consequences.
18. Students will not download or install pirated software, music, video or files that infringe

on copyright laws onto computers. Possession of unlicensed or pirated software is illegal.

19. Teachers will provide alternate activities for students who do not have permission to use the internet.
20. If Integration Charter Schools reasonably determines that the student has willfully damaged/hack any school hardware/software, Integration Charter Schools reserves the right to apply the appropriate disciplinary action to the student who is responsible for such violation.

Violations of this Policy

ICS, including central offices and schools, reserves the right to terminate any user's access to ICS Internet Systems - including access to ICS e-mail - at any time. If a student violates this policy, appropriate disciplinary action will be taken consistent with the Code of Conduct. If a student's access to ICS's Internet System is revoked, the student may not be penalized academically, and ICS will ensure that the student continues to have a meaningful opportunity to participate in the educational program. All users must promptly disclose to their teacher, supervisor, principal or manager any information they receive that is inappropriate or makes them feel uncomfortable.

Student Records

FERPA

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that ICS or the School, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, ICS and/or the School may disclose appropriately designated "directory information" without written consent, unless you have advised ICS or the School to the contrary, in accordance with School procedures.

The primary purpose of directory information is to allow ICS and/or the School to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks.

In addition, two federal laws require local educational agencies (LEAs), such as ICS, receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.¹

If you do not want ICS or the School to disclose directory information from your child's education records without your prior written consent, you must notify the School in writing by September 1st of the current school year.

ICS has designated the following information as directory information:

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Participation in officially recognized activities and sports

¹ These laws are: Section 9528 of the Elementary and Secondary Education Act (20 U.S.C. § 7908) and 10 U.S.C. § 503(c).

- Weight and height of member of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency or institution attended
- Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a PIN, password, or other factor known or possessed only by the authorized user
- A student ID number or other unique personal identifier that is displayed on a student ID badge, but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a PIN, password, or other factor known or possessed only by the authorized user.

FERPA Notice of Rights

FERPA affords parents and students who are 18 years of age or older ("**eligible students**") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day ICS or the School receives a request for access.

Parents or eligible students should submit a written request to the School Principal that identifies the records they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request ICS or the School to amend the student's education records that the parent or eligible student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask ICS or the School to amend a record should submit a written request to the School Principal, clearly identifying the part of the record they want changed, and specifying why it should be changed. If ICS or the School decides not to amend the record as requested by the parent or eligible student, ICS or the School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before ICS or the School discloses personally identifiable information ("**PII**") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to School officials with legitimate educational interests. A School official is a person employed by Integration Charter Schools ("**ICS**") as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the ICS Board of Trustees. A School official also may include a volunteer or contractor outside of the School who performs an institutional service or function for which the School would otherwise use its own employees and

who is under the direct control of the School with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another School official in performing his or her tasks. A School official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, ICS or the School will disclose education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer; however, ICS or the School will make a reasonable attempt to notify the parent or eligible student of the records request.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by ICS or the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Disclosures that ICS or the School may make without parental consent

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires ICS or the School to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures.

ICS or the School may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other School officials, including teachers, whom ICS or the School determines to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the School has outsourced institutional services or functions;
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer;
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements

that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf;

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid;
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released;
- To organizations conducting studies for or on behalf of ICS or the School, in order to develop, validate, or administer predictive tests; administer student aid programs; or improve instruction;
- To accrediting organizations to carry out their accrediting functions;
- To parents of an eligible student if the student is a dependent for IRS tax purposes;
- To comply with a judicial order or lawfully issued subpoena;
- To appropriate officials in connection with a health or safety emergency;
- Information ICS or the School has designated as "directory information";
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement; and
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966.

Grievance Policy

General Procedure

Any parent/guardian who has a concern about a school policy, academic grade, discipline decision, or anything else, is encouraged to contact the appropriate staff member at your student's school by telephone or email; contact information for the staff members at your student's school can be found on the school's website. All staff members are committed to responding promptly to parent/guardian concerns. If an issue is not resolved promptly or satisfactorily, please contact the Principal to discuss the matter further.

Any individual or group may bring complaints or concerns of any kind to the Principal of your student's school. The Principal will work to resolve conflicts fairly and informally, as quickly as possible. After reviewing the complaint, the Principal will respond in writing, by telephone, or in person depending on the circumstance. If the Principal is unable to resolve the complaint to the individual or group's satisfaction, or if the complaint is about the Principal, the individual or group may bring their complaint to the President of Integration Charter Schools (ICS). After reviewing the complaint, the President will respond as quickly as possible and shall take such steps as he deems necessary in order to resolve the complaint.

The Board of Trustees of ICS shall serve as the appeals body for any complaints that are not satisfactorily resolved. The complaint may be presented to the Board in an open meeting, in written form, by letter or via email to icsboard@integrationcharterschools.org. The Board of Trustees shall investigate and respond to all complaints in a timely manner.

Procedure for Complaints under Section 2855 of the Charter Schools Act

Section 2855(4) of the New York Education Law (part of the New York State Charter Schools Act (CSA)) provides that any individual or group may bring a complaint directly to the Board of Trustees of ICS alleging a violation of the CSA, the School's charter, or any other provision of law relating to the management or operation of ICS. All such complaints should be in writing and include the following:

1. the name, address, and phone number of the complainant;
2. a detailed statement of the complaint, including the specific provision of the School's charter or law that allegedly has been violated;
3. the relief sought by the complainant; and
4. the response, if any, received from the School thus far.

The Board of Trustees will respond in writing to any complaint submitted in writing no later than 30 days from receipt of the written complaint. Depending upon the circumstances, the Board's first response to a complaint may be to advise the complainant as to the timeline for further review, investigation, and resolution of the complaint, rather than an immediate resolution of the complaint.

If the complainant believes that the Board of Trustees has not adequately addressed the complaint, the individual or group may then present the complaint to ICS's charter entity, the Board of Regents of the University of the State of New York ("Board of Regents"). The Board of Regents has delegated authority to handle complaints concerning charter schools to the Commissioner of Education. The Charter School Office of the New York State Education Department, on behalf of the Commissioner, will investigate and respond to complaints concerning charter schools that have been appropriately filed, and has the power and the duty to issue appropriate remedial orders involving any such complaint.

The process for bringing a complaint to the Board of Regents can be found here:
<http://www.p12.nysed.gov/psc/complaint.html>

The complaint may be submitted via email to the Board of Regents at charterschools@nysed.gov, or by writing to the Board of Regents at the following address:

New York State Education Department
Charter School Office
89 Washington Avenue
Albany, NY 12234
(518) 474-1762

New Ventures' LEA and Title I School Parent Involvement Policy

Purpose

The purpose of this policy is to encourage and facilitate involvement by parents or guardians of students participating in the School's Title I School Wide Project (SWP) programs in the educational programs and experiences of students. The policy shall provide the framework for organized, systematic, ongoing, informed and timely parental involvement in relation to decisions about the Title I services within New Ventures. Below is the School's policy acting as both a Local Education Agency and Title I school. It thus fulfills the requirements for LEA and School-level parent involvement policies as required by Title I.

Parental Policy Involvement

The partnership between home and School will be supported by:

- New Ventures' development of an infrastructure to continually assess, plan and implement strategies that build the partnership.
- A School-wide committee of parents, teachers, and administrators to guide overall program efforts and serve as a home-School partnership network.
- Coordination of activities through the staff development system in areas of teachers in-service, assessment of teaching strengths, and communication with parents or guardians toward the creation of the best possible learning experience for each student.
- Self-study of parental involvement practices by teams of parents, teachers and the Principal using the following seven basic principles considered essential to home-school partnerships.
- Every aspect of the School climate is open, helpful and friendly.
- Communications with parents and guardians (whether about School policies and programs or about their own children) are frequent, clear and two-way.
- Parents are treated as collaborators in the educational process, with a strong complementary role to play in their children's school learning and behavior.
- Parents are encouraged, both formally and informally, to comment on School policies and to share the decision-making.
- The Principal and School administrators actively express and promote the philosophy of partnership with all families.
- The School encourages volunteer participation from parents and the community at large.
- The School recognizes its responsibility to forge a partnership with all families in the School, not simply those most easily available.
- Resources will be provided to the Principal, teachers and parents by the coordinator of Title I services.

School-Level Involvement Policy Component

The School invites parental participation in all aspects of Title I educational programming for its students. New Ventures will involve parents in the following ways:

- a. New Ventures will convene an annual meeting to inform parents of the School's participation in Title I. In conjunction with the Parents Association, if applicable, the Principal will schedule this meeting at the beginning of each school year. The administration will also send letters to parents informing them of the date and location of the meeting, and will post this information on the School website.
- b. If deemed necessary by the Parents Association and the Principal, the School will hold multiple meetings so as to include as many parents as possible. New Ventures will use appropriate Title I funds to provide necessary transportation and child care for parents attending the meeting;
- c. The Parents Association will hold regular meetings in accordance with its by-laws. These meetings will regularly address improvement of Title I programs, including the School parental involvement policy;

New Ventures will provide parents:

- a. Timely information about Title I/SWP programs. The Principal will keep parents updated about the types of services their children are being provided, the planned duration of service, and the goals of the services;
- b. The School performance profile required under Title I section 1116(a)(3);
- c. The student's individual student assessment results, including an interpretation of such results.
- d. A description and explanation of the curriculum in use at the School, the forms of assessment used to measure student progress, and the proficiency levels students are expected to meet;
- e. Opportunities for regular meeting. The Principal will be attentive to parents' needs, and will schedule parent meetings as requested and is feasible;

Description of Parent Participation in Development of Policy

The Board of Trustees has developed the Parent Involvement Policy draft in expectation of revision in conjunction with the Parents' Association and approval, if applicable.

Policy's Availability to Parents

The policy will be translated into Spanish and other major languages of the School. The policy will also be available at registration and/or orientation to all new parents, at Parents'

Association meetings, curriculum night, and parent-teacher nights; and on an ongoing basis at the school office.

Technical Assistance and Support

The President, principal, teachers, and the Parents Association provide technical support to help parents plan and implement effective parent involvement activities.

Technical assistance will include:

- a. Assistance in parent outreach through mail and telephone;
- b. Joint planning of parent activities;
- c. Preparing and translating parent involvement announcements and pamphlets;
- d. Staff participation as presenters at Parents' Association events;
- e. Support in preparing parent information such as reading lists, parent guides, and partial-immersion brochures;
- f. Assistance in making available sound-system, video, and electronic equipment for events;
- g. Individual teacher meetings with parents on homework, and other instructional support.

Annual Evaluation of Parent Involvement Policy

New Ventures' will ensure the policy is up-to-date and effectively addresses the changing needs of the School community through an annual policy evaluation process. At least once each school year, the Principal and Parents' Association will meet to evaluate the policy's content and effectiveness in increasing parent involvement. They will discuss ways to identify strategies for overcoming barriers to parent participation and to increase parent participation. As needed, policy revisions will be based on the evaluation and will be incorporated into the Parent Involvement Policy. The Principal will be responsible for the implementation of the Policy and for revisions.

Code of Conduct

We believe that all students are able to meet behavioral expectations. Through in-class supports provided by teachers and educational assistants and a curriculum that explicitly identifies and teaches self-management strategies, we expect students to succeed in learning to manage their own behaviors. By implementing these strategies in conjunction with individual Behavior Intervention Plans where appropriate, we expect students to achieve a high degree of success. In the event that a student's behavior is not responsive to our supports and interventions, and his or her behavior is disruptive to the educational environment and/or poses a danger to the student or others, such behavior will be addressed, consistent with the requirements of due process, by the School's Code of Conduct. Students with disabilities will be governed by the same discipline policy as other students, except when it is determined that the behavior at issue is a manifestation of the student's handicapping condition. In such instances, compliant with our policies on disciplining students with disabilities and due process, where applicable, a review will be undertaken to determine whether referral to the CSE is warranted.

An Optimist's Creed by Christian D. Larson (1912)

I promise myself:

To be so strong that nothing can disturb my peace of mind.

To assist or cheer up any individual.

To talk health, happiness and prosperity to every person that I meet.

To make all of my friends feel that there is something worthwhile in them.

To look at the sunny side of everything and make my optimism come true.

To think only of the best, to work only for the best and to expect only the best.

To be just as enthusiastic about the success of others as I am of my own.

To forget the mistakes of the past and press on to the greater achievements of the future.

To wear a cheerful expression at all times and to give a smile to every living creature I meet.

To give so much time to improving myself that I have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

To think well of myself and to proclaim this fact to the world, not in loud words but in great deeds.

To live in the faith that the whole world is on my side, so long that I am true to the best that is in me.

Behavior Management Plan

We believe that all students are able to meet behavioral expectations. Through in-class supports provided by teachers and educational assistants and a curriculum that explicitly identifies and teaches self-management strategies, we expect students to succeed in learning to manage their own behaviors. By implementing these strategies in conjunction with individual Behavior Intervention Plans where appropriate, we expect students to achieve a high degree of success. In the event that a student's behavior is not responsive to our supports and interventions, and his or her behavior is disruptive to the educational environment and/or poses a danger to the student or others, such behavior will be addressed, consistent with the requirements of due process, by the School's Code of Conduct. Students with disabilities will be governed by the same

discipline policy as other students, except when it is determined that the behavior at issue is a manifestation of the student's handicapping condition. In such instances, compliant with our policies on disciplining students with disabilities and due process, where applicable, a review will be undertaken to determine whether referral to the CSE is warranted.

Suspension

A short term suspension is defined as an in-school or out-of-school suspension of ten (10) days or less.

The Principal may impose a short-term suspension and shall follow due process procedures consistent with applicable federal case law. Before imposing a short-term suspension, the Principal shall provide notice to inform the student of the charges against him or her, and if the student denies the charges, an explanation of the evidence against the student. The student shall be given an opportunity to deny or explain the charges against him/her that led to the suspension. The Principal shall immediately notify the parent(s) or guardian in writing that the student may be suspended from school. Written notice shall be provided by personal delivery or express mail delivery within 24 hours of the decision to impose suspension at the last known address(es) of the parent(s) or guardian. Where possible, notification shall also be provided by telephone. Such notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the parent(s) or guardian of their right to request an immediate informal conference with the Principal. Such notice and informal conference shall be in the primary language or mode of communication used by the parent(s) or guardian. The parents or guardian of the student and the student shall have the opportunity to present the student's version of the incident and to ask questions of the complaining witnesses. Such notice and opportunity for an informal conference shall take place prior to the suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon as possible after the suspension as is reasonably practicable.

The Principal's decision to impose a short-term suspension may be challenged by the parent(s) or guardian in accordance with the Grievance Policy, as set forth in this Handbook.

Procedures and Due Process for Long-Term Suspensions/Expulsion

A long-term suspension is defined as an in-school or out-of-school suspension of more than ten (10) days. Expulsion refers to the permanent removal of a student from school for disciplinary reasons.

Upon determining that a student's action warrants a possible long-term suspension or expulsion, the following procedure, consistent with applicable federal case law, will be followed:

- The student shall immediately be removed from the class or the School, as needed.
- The Principal shall verbally inform the student of the charges and that he or she is being considered for a long-term suspension or expulsion and state the reasons for such actions. Where applicable, the student will have the opportunity to explain his or her side of the events.

- The Principal shall also immediately notify the student's parent(s) or guardian in person or on the phone.
- The Principal shall provide written notice that the School is going to commence a disciplinary hearing to the student and his or her parent(s) or guardian(s) by personal delivery or express mail delivery as soon as possible to the last known address of the parent(s) or guardian(s). Such notice shall provide a description of the incident(s) that resulted in the suspension and shall indicate that a formal hearing will be held on the matter which may result in a long-term suspension or expulsion. The notification provided shall be in the dominant language used by the parent(s) or guardian if it is known to be other than English. The notice will state that at the formal hearing, the student shall have the right to be represented by counsel, present and question witnesses, and present evidence.
- The School will set a date for the hearing. The student's parent(s) or guardian will be notified in writing of the:
 - charges and description of the incident(s),
 - date, time and place of a hearing,
 - right at the hearing to:
 - be represented by counsel at the parent(s) or guardian's own expense; and
 - present evidence and question witnesses
 - that an audio transcript of the hearing will be created and made available to all parties upon request.
- The Principal or his/her designee will conduct the formal hearing. The hearing officer's report shall be advisory only and the Principal may accept or reject all or part of it. A written decision will be issued within five (5) school days after the formal hearing. An appeal from the written decision may be made in writing to the Board of Trustees, no later than ten (10) calendar days from the date of the written decision. The Board of Trustees will issue a written decision within ten (10) business days of receiving the appeal. Final decisions of the Board of Trustees may be appealed to the School's authorizer.

Provision of Instruction During Removal

New Ventures will ensure that alternative educational services are provided to a student who has been suspended or removed to help that child progress in the general curriculum of New Ventures. Alternative instruction for suspended students will be of sufficient duration to enable a student to cover all class material, take all tests and quizzes, keep pace with other students, and progress to the next grade level. All suspended students are entitled to receive alternative instruction commencing within 24 hours of the suspension or expulsion. Alternative instruction

dates and times will be listed on the student's suspension letter. All students will be provided with a minimum of two hours per day of alternative instruction.

For a student who has been expelled, alternative instruction will be provided in like manner as a suspended student until the student enrolls in another school or until the end of the school year, whichever comes first.

Alternative instruction will take place at New Ventures. One or more of the following individuals will provide instruction: teacher, teacher aide. Please note that whoever administers this instruction will meet all certification requirements as stipulated in Section 2854(3)(a-1) of the New York State Education Law.

Gun Free Schools Act

Federal law requires the expulsion from School for a period of not less than one year of a student who is determined to have brought a firearm to the School, or to have possessed a firearm at school, except that the Principal may modify such expulsion requirement for a student on a case-by-case basis, if such modification is in writing, in accordance with the Federal Gun-Free Schools Act of 1994 (as amended).

"Firearm" as used in this law is defined by 18 USC § 921(a), and includes firearms and explosives.

Security and Safety

School personnel may use reasonable physical restraint, if necessary, to protect persons or property from physical injury or damage or to remove a violent or disruptive student from self-harm or harm to others, the student has refused to comply with a request to refrain from further disruptive acts and alternative procedures and methods not involving the use of physical force cannot reasonably be employed to achieve these purposes. If damage or loss of school property occurs, official report cards and transcripts may be withheld until payment for the damage is received or the lost property is recovered.

Students with Disabilities

In addition to the disciplinary procedures applicable to all students, the following procedures are applicable to students with disabilities. A student not specifically identified as having a disability but whose school district of residence or charter school, prior to the behavior that is the subject of the disciplinary action, has a basis of knowledge—in accordance with 34 C.F.R. § 300.534(b)—that a disability exists shall also be disciplined in accordance with these provisions. New Ventures shall comply with 34 C.F.R. §§ 300.530-300.537 and the following procedures, except that in the event that the following procedures are inconsistent with federal law and regulations, such federal law and regulations shall govern.

New Ventures shall maintain written records of all suspensions and expulsions of students with disabilities including the name of the student, a description of the relevant behavior, the disciplinary action taken, and a record of the number of days a student has been suspended or removed for disciplinary reasons.

Students whose IEP includes a Behavior Intervention Plan (BIP) will be disciplined in accordance with the BIP. If the BIP appears not to be effective or if there is a concern for the health and safety of the student or others if the BIP is followed with respect to the infraction, the matter will immediately be referred to the appropriate CSE for any consideration of changes.

If a student identified as having a disability is suspended during the course of the school year with a determined pattern of behavior, and a disciplinary change of placement appears to be imminent, the student will immediately be referred to the CSE of the student's district of residence for reconsideration of the student's educational placement. Such a student shall not be suspended for a total of more than ten days during the school year without the specific involvement of the CSE prior to the eleventh day of suspension, because such suspensions may be considered to be a change in placement.

In considering the placement of students referred because of disciplinary problems, the CSE of the student's district of residence is expected to follow its ordinary policies with respect to parental notification and involvement.

New Ventures will ensure that the Director of Special Education or special education teacher and/or the general classroom teacher will attend all meetings regarding their students initiated by the committee on special education from the student's district of residence. These meetings could be relating to the development and implementation of behavioral intervention plans, initial referrals, change in service, or annual reviews, MDR's, among other things.

Provision of Services During Removal

Students removed for a period of fewer than ten cumulative days during the school year will receive all classroom assignments and a schedule to complete such assignments during the time of his or her suspension. Provisions will be made to permit a suspended student to make up assignments or tests missed as a result of such suspension. The School also shall provide alternative instruction to assist the student, so that he or she is given full opportunity to complete assignments and master the curriculum, including additional instruction, phone assistance, computer instruction and/or home visits and one-on-one tutoring.

During any subsequent removal that, combined with previous removals equals ten or more school days during the school year, but does not constitute a change in placement, services must be provided to the extent determined necessary to enable the student to progress appropriately in the general curriculum and in achieving the goals of his or her IEP. In these cases, school personnel, in consultation with the student's special education teacher, shall make the service determination.

During any removal for drug, weapon, controlled substance and/or seriously bodily injury offenses pursuant to 34 C.F.R. § 300.530(g)(1)-(2), services will be provided to the extent necessary to enable the student to progress appropriately in the general curriculum and in achieving the goals of his or her IEP. These service determinations will be made by the CSE of the student's district of residence. The School will place students in an interim alternative educational setting as appropriate and mandated by 34 C.F.R. § 300. 531).

During any subsequent removal that does constitute a change in placement, but where the behavior is not a manifestation of the disability, the services must be provided to the extent

necessary to enable the student to progress appropriately in the general curriculum and in achieving the goals of his or her IEP. The CSE of the student’s district of residence will make the service determination.

Due Process

If discipline that would constitute a change in placement is contemplated for any student with a disability, the following steps shall be taken: (1) no later than the date on which the decision to take such action is made, the parent(s) or guardian of the student with a disability shall be notified of that decision and provided the procedural safeguards notice described in 34 C.F.R. § 300.504; and (2) immediately, if possible, but in no case later than ten school days after the date on which such decision is made, the CSE of the student’s district of residence and other qualified personnel shall meet and review the relationship between the student’s disability and the behavior that is the subject of the disciplinary action.

If, after review, it is determined that the student’s behavior was not a manifestation of his or her disability, then the student may be disciplined in the same manner as a student without a disability, except as provided in 34 C.F.R. § 300.530(d), which relates to the provision of services to students with disabilities during periods of removal.

A student’s parent(s) or guardian may request a hearing to challenge the manifestation determination. Except as provided below, the student will remain in his or her current educational placement pending the determination of the hearing.

If a parent or guardian requests a hearing or an appeal to challenge the interim alternative educational setting or the manifestation determination resulting from a disciplinary action relating to weapons or drugs, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in the disciplinary action, whichever occurs first, unless the parent or guardian and the School agree otherwise.

Students with a 504 Plan and “Deemed to Know” Students

With regard to disciplinary actions, including suspension or expulsion, the Section 504 rights of charter school students with disabilities are the same as other students with disabilities.

When addressing discipline for students with disabilities, including students with 504 plans or those who are “presumed to have a disability,” New Ventures will comply with applicable legal requirements governing the discipline of a student for misconduct.

Progressive Infraction Levels for All Students

Progressive Infraction Levels	
Level 1	Uncooperative/Noncompliant Behavior

Level 2	Disorderly/Disruptive Behavior
Level 3	Aggressive or Injurious/Harmful Behavior
Level 4	Seriously Dangerous or Violent Behavior

All suspensions and disciplinary removals must be effectuated substantively and procedurally in accordance with Federal law. When a student is believed to have committed a crime, the police must be summoned and parents must be contacted.
